Chapter 3: Birth & The Newborn Child
Group Presentations (10 Points)

Students will work in groups to present their findings on an assigned section from chapter 3. You will have 1 hour to complete the poster on your section. During the second half of the class, each group will discuss their section, teaching the rest of the students. Make sure you are in class.

1. Everyone in your group will be required to work together to complete the poster.
2. Everyone in your group will be required to speak during the presentation.
3. Your information can be written in bullet point format with the main ideas.
4. Make sure to include all definition terms from your section.
5. Students who are absent or who do not participate will not get any points.
6. Students in the audience need to listen respectfully. This is a good time to take notes or pictures of the posters.
